

interference_score_lexical_wrt_distractors vs evidence_overlap_ratio
Spearman rho=-0.654 (moderate), n=20

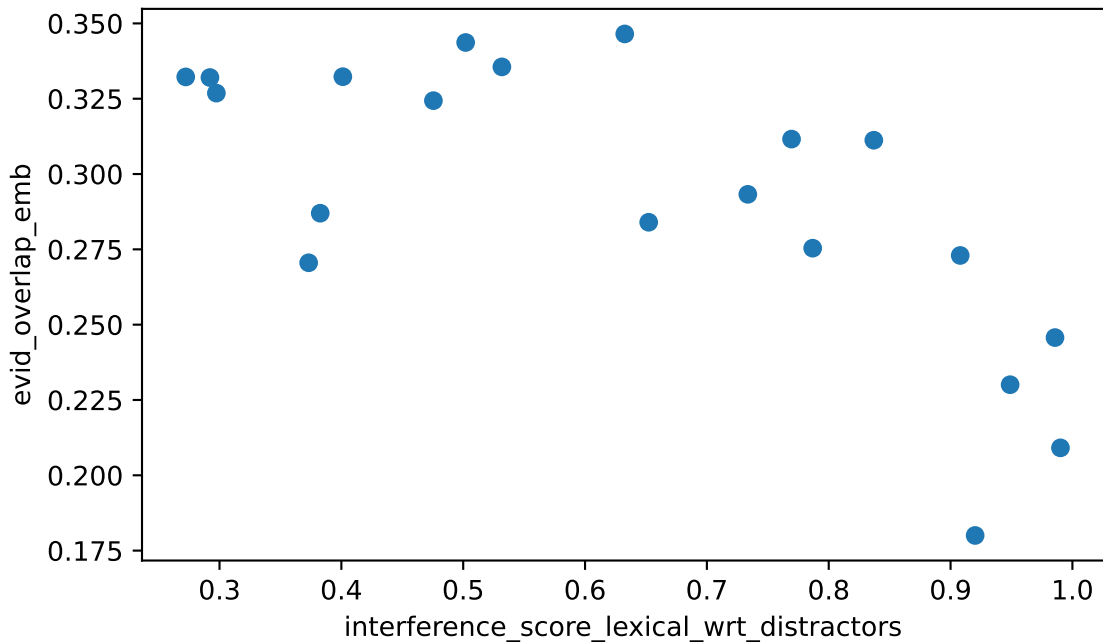

interference_score_lexical_wrt_distractors vs hallu_score
Spearman rho=+0.400 (weak), n=20

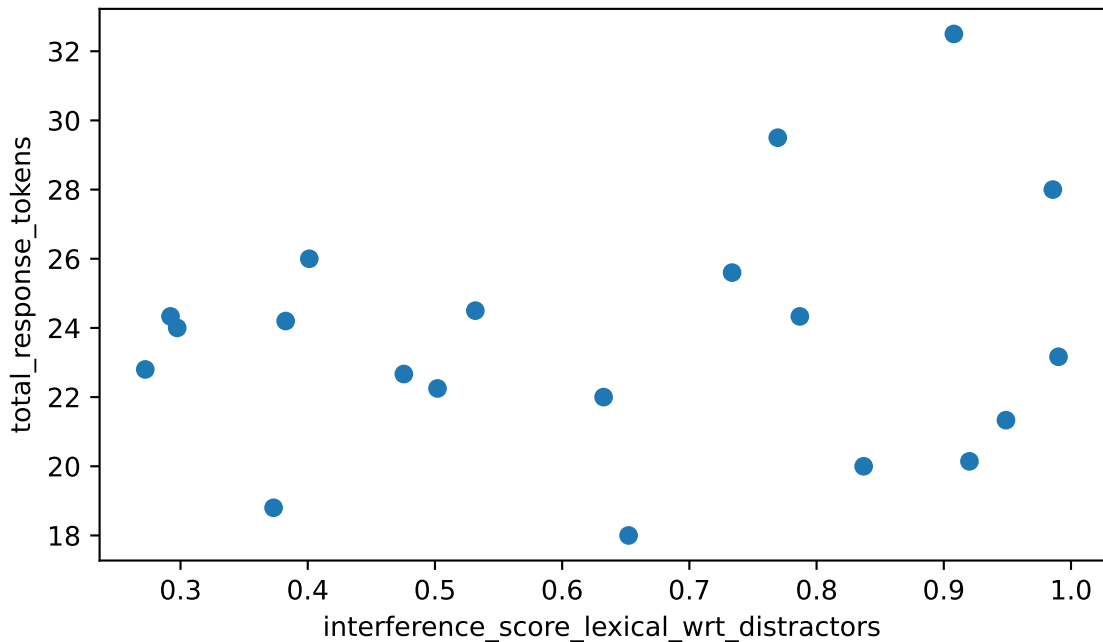

interference_score_lexical_wrt_distractors vs evid_overlap_ngram
Spearman ρ = -0.159 (weak), n = 20

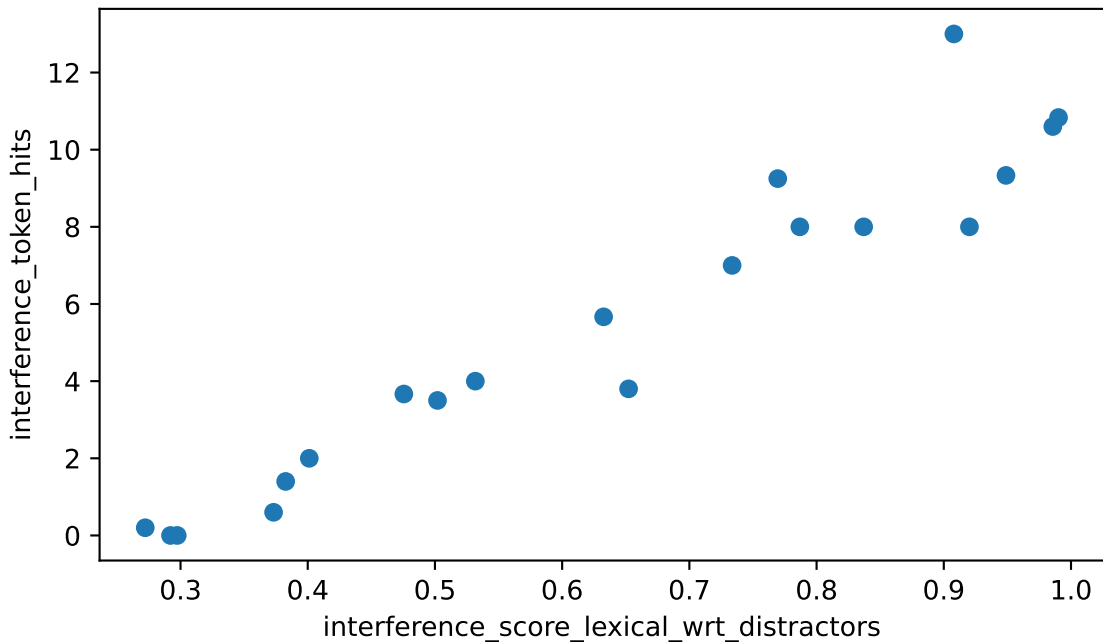

interference_score_lexical_wrt_distractors vs evid_overlap_emb
Spearman rho=-0.654 (moderate), n=20

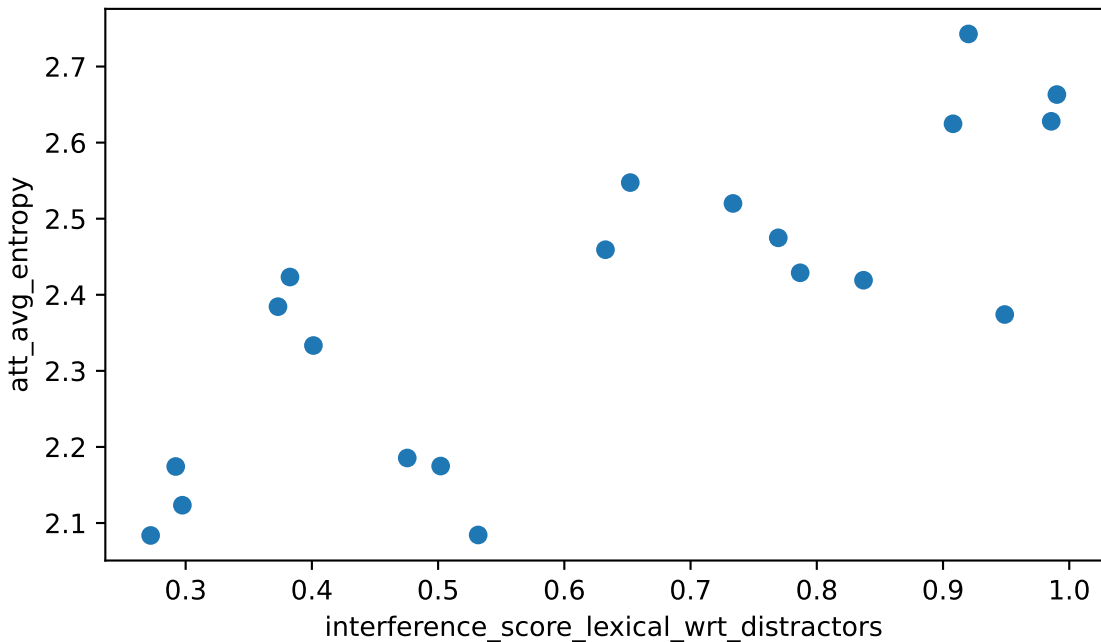

interference_score_lexical_wrt_distractors vs total_response_tokens
Spearman rho=+0.068 (weak), n=20

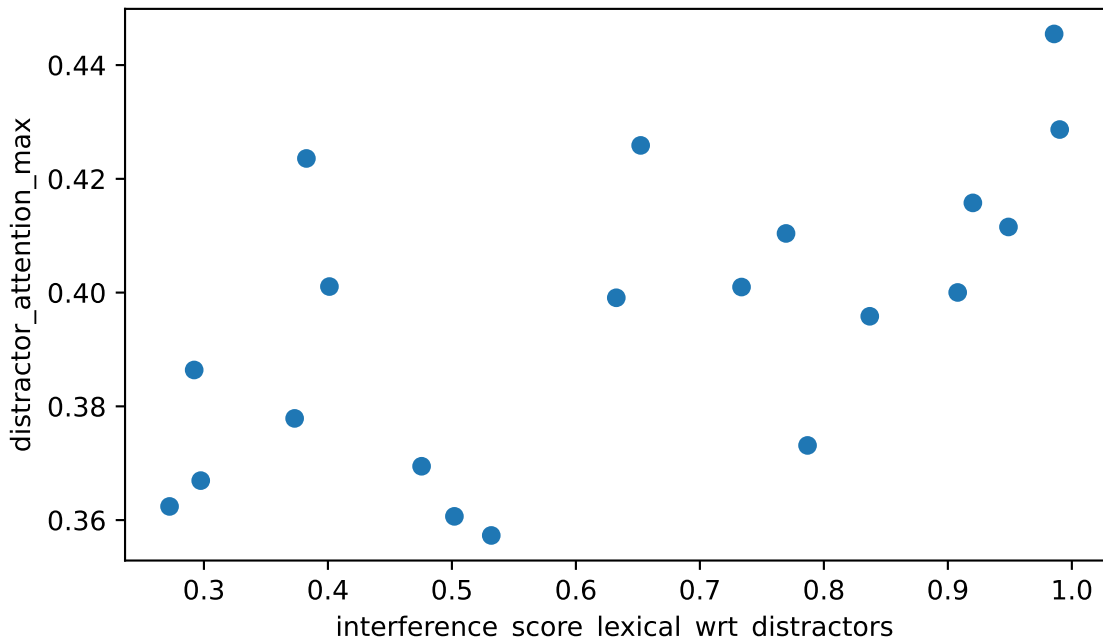

interference_score_lexical_wrt_distractors vs interference_token_hits
Spearman rho=+0.960 (strong), n=20

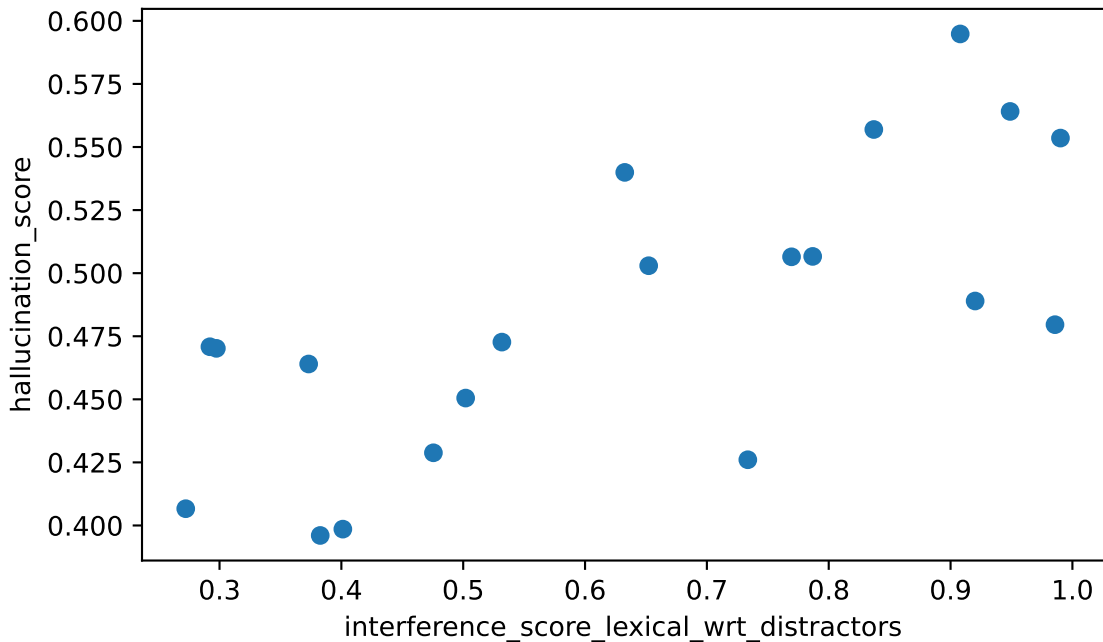

interference_score_lexical_wrt_distractors vs att_avg_entropy
Spearman rho=+0.767 (strong), n=20

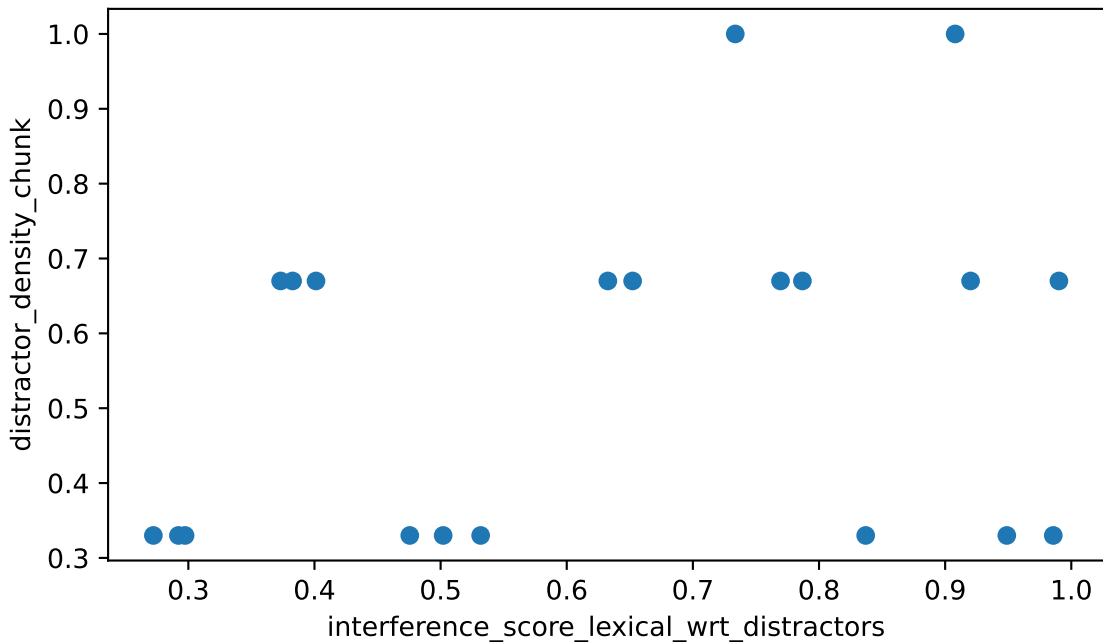

interference_score_lexical_wrt_distractors vs distractor_attention_max
Spearman rho=+0.598 (moderate), n=20

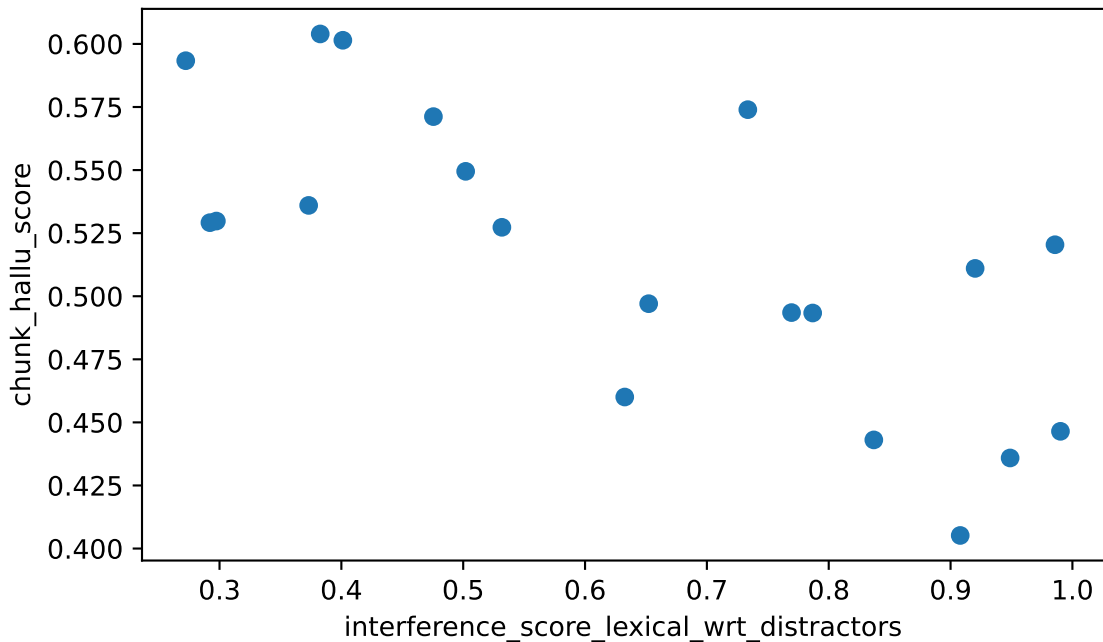

interference_score_lexical_wrt_distractors vs hallucination_score
Spearman rho=+0.731 (strong), n=20

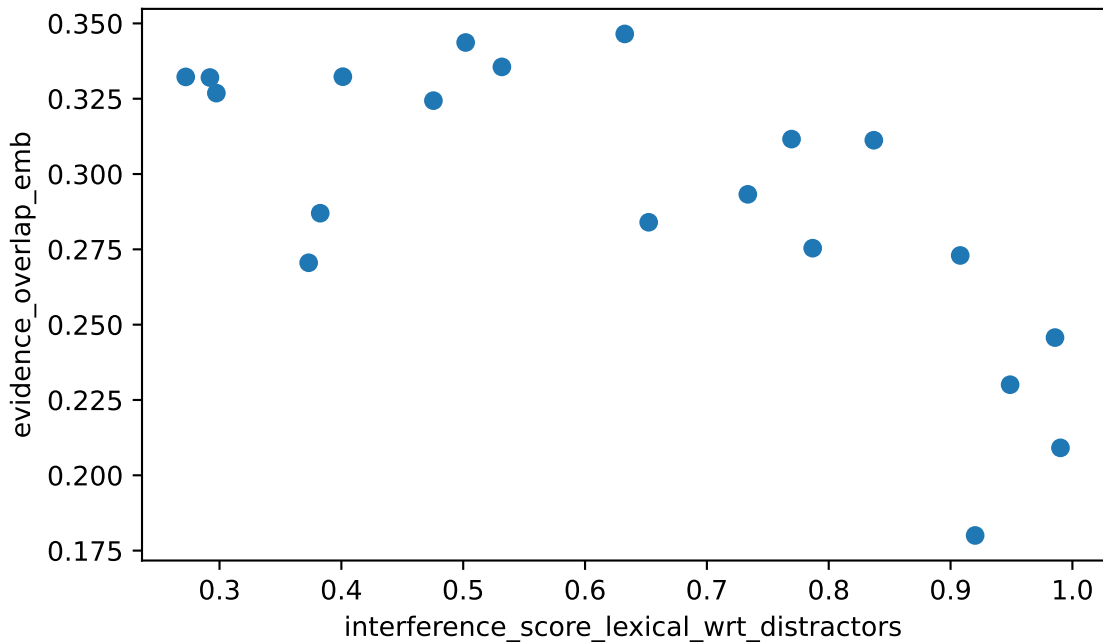

interference_score_lexical_wrt_distractors vs distractor_density_chu
Spearman rho=+0.251 (weak), n=20

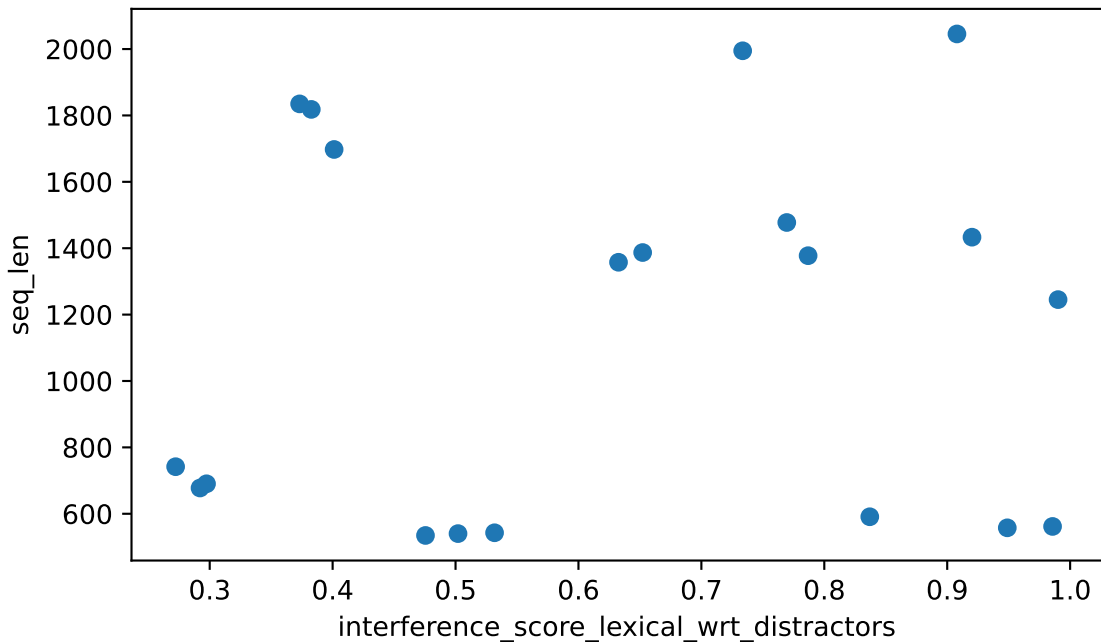

interference_score_lexical_wrt_distractors vs chunk_hallu_score
Spearman rho=-0.731 (strong), n=20

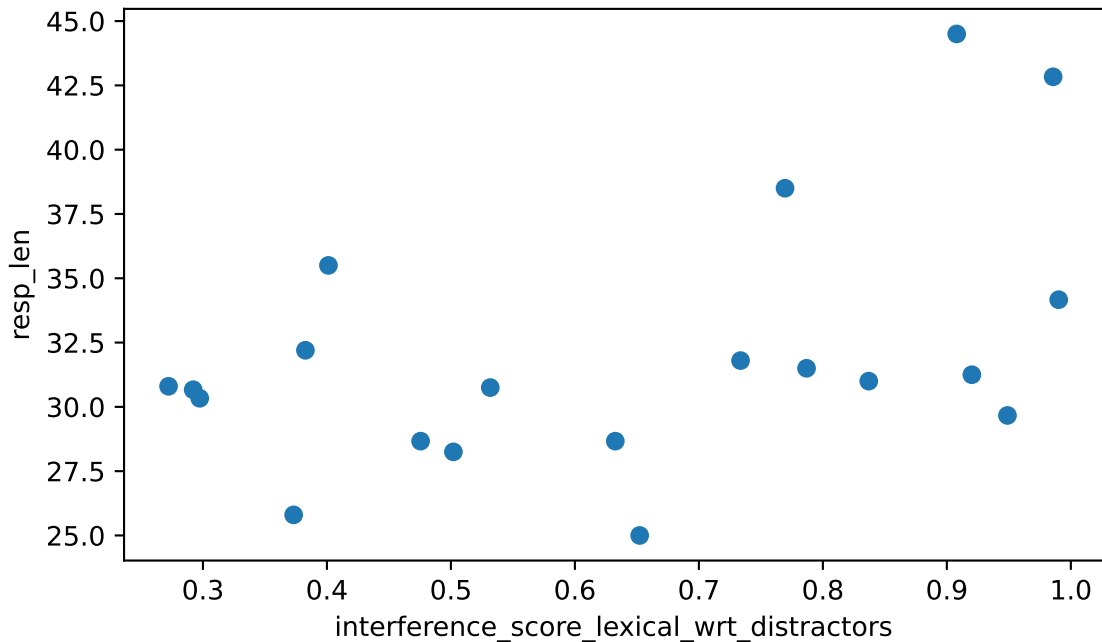

interference_score_lexical_wrt_distractors vs evidence_overlap_emb
Spearman rho=-0.654 (moderate), n=20

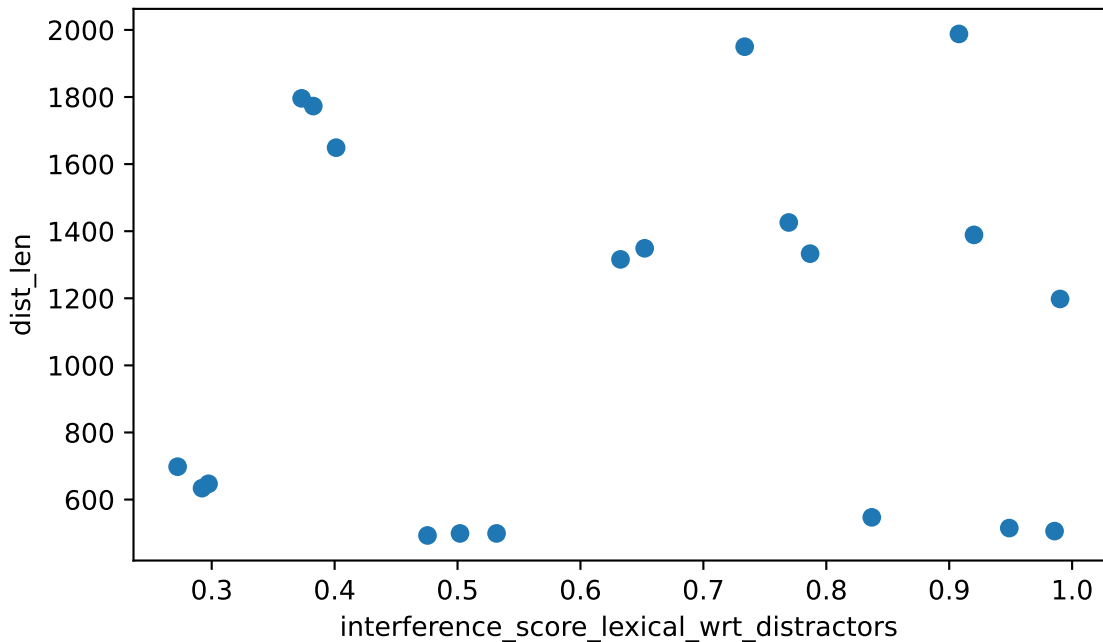

interference_score_lexical_wrt_distractors vs seq_len
Spearman rho=+0.006 (weak), n=20

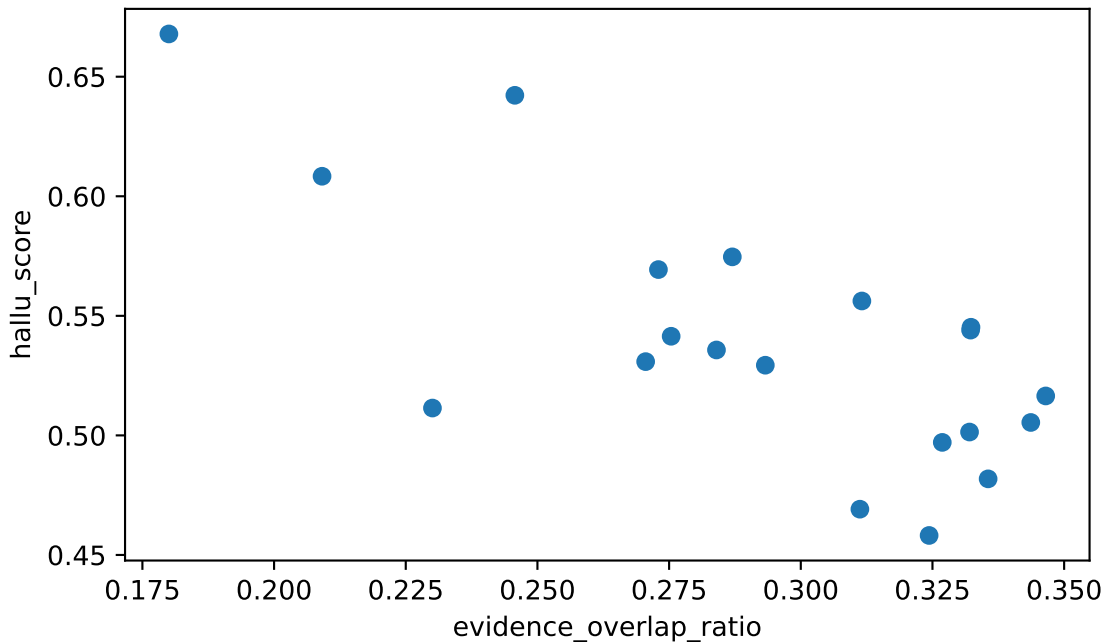

interference_score_lexical_wrt_distractors vs resp_len
Spearman rho=+0.423 (moderate), n=20

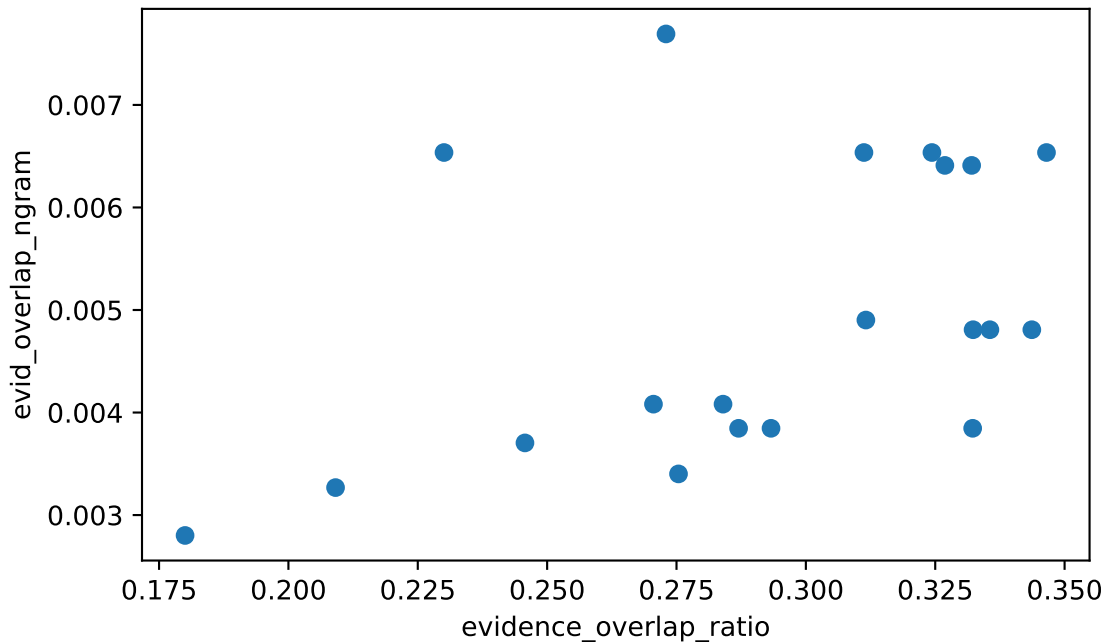

interference_score_lexical_wrt_distractors vs dist_len
Spearman rho=+0.004 (weak), n=20

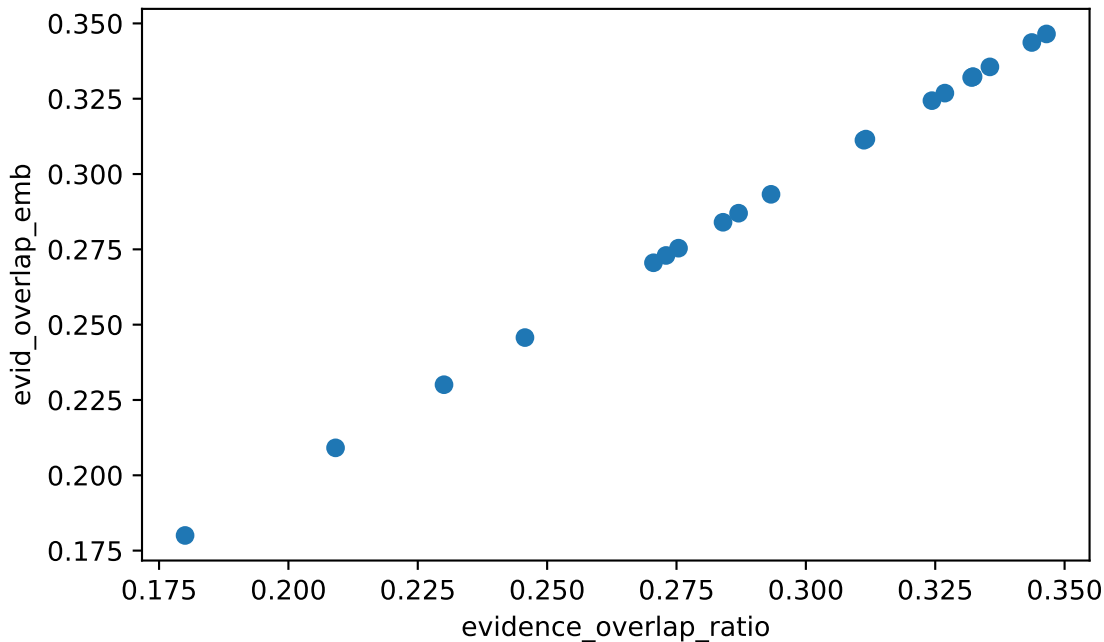

evidence_overlap_ratio vs hallu_score
Spearman rho=-0.558 (moderate), n=20

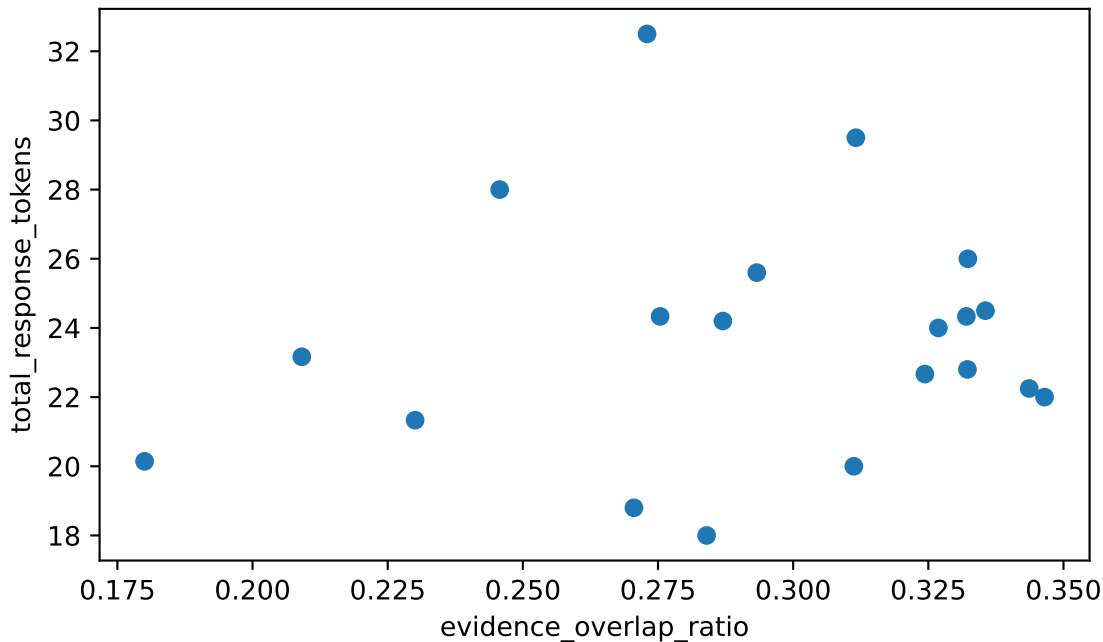

evidence_overlap_ratio vs evid_overlap_ngram
Spearman rho=+0.410 (moderate), n=20

evidence_overlap_ratio vs evid_overlap_emb
Spearman rho=+1.000 (strong), n=20

evidence_overlap_ratio vs total_response_tokens
Spearman ρ =+0.126 (weak), n=20

evidence_overlap_ratio vs interference_token_hits
Spearman rho=-0.570 (moderate), n=20
